SCULPTING		X	X	X		

The discs included in the **Merlin Taxidermy Tool Set** perform the following tasks:

PART #	NAME	USAGE DESCRIPTION
10013	 Black Magic 2" Miniature Detail Fleshing Blade	An indispensable finishing tool. Use Black Magic for detail fleshing around the eyes, ears, mouth area and hide edges. Great for tougher hides like wild boar and large mammals. Excellent for gator skins.
10011	 2" Flat Profile Tungsten Carbide Abrasive Disc Coarse - Red	The work horse of the tool set. Use the Red Tungsten Carbide for a multitude of tasks - from fleshing skins to sculpting and clean up of plaster, fiberglass and foam forms.
21008	 2" Saw Chain Blade Eight (8) Tooth 1/4" Pitch	Our signature tool - "The World's Smallest Chain Saw." Use the 8 Tooth Saw Chain to cut and sculpture materials such as wood, ice, dense foam, foam core, rubber and soft non-ferrous materials. Great for working on habitat.
10003	 2" Flap Disc Sander - 100 Grit	The flexible finishing sander. The Flap Disc Sander has a rubber backing which makes it extremely flexible and allows the disc to conform to the shape being sanded. Used for sanding foam forms, fiberglass and finishing wood display pieces.
10008	 2" Aluminum Oxide Cutting Disc	Hard cutter disc. Use the Aluminum Oxide Cutter to cut bone and metal. Exceptional for the initial removal of excessive fiberglass on fish forms.
10007	 2" Silicon Carbide Grinding Disc - 60 Grit	Grinder tool. Use the handy Silicon Carbide Grinder accessory to keep a nice sharp edge on all your cutting tools.
